PHASES OVERVIEW

MIND SHIFTING App APP PROCESS OVERVIEW

Context for making this App app:

[skip]

PHASE 1 – INTRODUCTION

[skip]

PHASE 2 – ASKING WHAT THEY WANT TO WORK ON

1. “Would you like to work on a problem, goal or negative experience?”

2. Client chooses button and or sub buttons

3. App says “tell me what the problem is in a few words”, or “tell me what your goal is in a few words”, or “tell me what the negative experience was in a few words”

PHASE 3 – DEFINING WHAT THEY WANT TO WORK ON INTO A CONCISE STATEMENT

PHASE 3 – METHOD SELECTION

For problems
App says “Would you like to use Problem Shifting, Identity Shifting, Belief Shifting and Blockage Shifting?”

For goals
App chooses the Reality Shifting method.

For negative experiences
App chooses the Trauma Shifting method.

PHASE 4 – METHOD APPLICATION

App follows the script for the chosen method.

Problem Shifting App programming

Problem Shifting script:

Step 1: Intro: Say “Please close your eyes and keep them closed throughout the process. Please tell me the first thing that comes up when I ask you each of the following questions, and keep your answers short. What could come up when I ask a question is an emotion, a body sensation, a thought, or a mental image. When I ask, ‘What needs to happen for the problem to no longer be a problem?’, allow your answers to be different each time.” Then go to Step 2.

Step 2: App says the sentence: “Feel the problem ‘here you insert the problem statement I gave in Step 1’ ... what does it feel like?” Then wait for my answer. This can take a few seconds. After I have given an answer go to Step 3.

Step 3: App says the sentence: “Feel ‘here you insert last answer’... what do you notice in yourself when you feel ‘here you insert last answer’. After I have given an answer go to Step 4.

Step 4. You ask me: “Feel the problem ‘here you insert the problem statement I gave in Step 1’, what has to happen for this to not be a problem?”. After I have given an answer go to Step 5.

Step 5: You ask me: "What would it feel like if ‘insert the last answer I gave you here’ had already happened?” Then you wait for my answer again. After I have given an answer go to Step 6.

Step 6: You ask me: “Feel ‘insert the last answer I gave you here’ ... what does ‘insert the last answer I gave you here’ feel like?” After I have given an answer go to Step 7.

Step 7: You ask me: “Feel ‘insert the last answer I gave you here’, what happens in yourself when you feel ‘insert the last answer I gave you here’?” After I have given an answer go to Step 8.

Step 8: Now you ask me: "Feel ‘insert the problem statement I gave in Step 1" ... does it still feel like a problem?” Then you wait for my answer.

If my answer is “YES”, then repeat steps 2-8.

If my answer is "NO," then you go to Phase 5 - Digging Deeper Process.

PHASE 5 – DIGGING DEEPER PROCESS

App asks “would you like to dig deeper in this area?” and only continues with the digging deeper phase if the answer is “yes”. If the client does not want to dig deeper, proceed straight to the Integration Questions phase.

App asks “Do you feel the problem will come back in the future?” If “yes” the App asks “how would you state the problem in a few words?”. That will give the problem statement for Problem 2, which should then be cleared using the process in Phase 4.

Once Problem 2 is clear then come back to digging deeper on the original problem (Problem 1). Go to the second digging-deeper question and ask “is there any scenario in which this would still be a problem for you?” if your answer is “yes”, ask “how would you state the problem in a few words?”. That will give the problem statement for Problem 3, which should be cleared using the Phase 4 process.
Once that problem is clear, come back to digging deeper on Problem 1 and ask again “is there any other scenario in which this would still be a problem for you?”. If the answer is “yes”, ask “how would you state the problem in a few words?”. That will give you the problem statement for Problem 4, which should be cleared using the Phase 4 process.

Repeat the process of coming back to the question “is there any scenario in which this would still be a problem for you?” and clear the problems that come up until the client’s answer is “no”.

Then the App asks “is there anything else about this that is still a problem for you?” If the answer is “yes”, it asks “how would you state the problem in a few words?”. That will give the problem statement for Problem 5, which should be cleared using the Phase 4 process.

Repeat the process by keeping on coming back to the question “is there anything else about this that is still a problem for you until the client’s answer is “no”.

Once this is the case the App should proceed to the next phase to ask Integration Questions.

PHASE 6 – INTEGRATION QUESTIONS

App asks Integration Questions.

<u>For problems</u>

- If only one problem was worked on, ask the Integration Questions about that problem.
- If more than one problem was worked on (due to finding new problems when digging deeper) ask the Integration Questions about the whole topic.

<u>For negative experiences</u>

- If only one problem was worked on, ask the Integration Questions about that problem.
- If more than one problem was worked on (due to finding new problems when digging deeper) ask the Integration Questions about the whole topic.

<u>For goals</u>

- Skip the question “what’s your intention now in relation to this?”
- Change the first question of the action section to “what needs to happen for you to achieve your goal?”

DEFINING PROBLEMS

MIND SHIFTING

GUIDANCE ON DEFINING PROBLEMS

In order to be able to apply a Mind Shifting method to a problem so that you can clear it, you first need to define the problem into a concise problem statement. Being able to do this quickly and efficiently is a skill that you must develop as a Mind Shifting coach. Here are some pointers that will help you to develop that skill:

EXPLAIN HOW MIND SHIFTING WORKS

Explaining how Mind Shifting works to clients before you begin a session really helps with getting them to give you concise problem statements. If you don't do this many clients will assume that the purpose of the session is for them to 'get things off their chest' or simply talk to you about their problems.

So, you should say to the client: *"The way Mind Shifting works is we won't just be talking about problems you want to work on, we will be applying Mind Shifting methods to those problems in order to clear them, and to do that we will need to define each problem into a problem statement by you telling me what the problem is in a few words. So I'll be asking you to do that when needed."*

ALWAYS USE THIS KEY PHRASE

- Always start by saying *"Tell me what the problem is in a few words".*
- If they give you a very long answer and are continuing to talk – politely interrupt them by saying: *"I'm just going to stop you there, because in order to clear this problem we need to define it into a few words so that we can apply a Mind Shifting method to it. So can you tell me what the problem is in a few words?"* Do this as many times as you need to in order to get a concise problem statement.

HANDLE EXCEPTIONS

- If they tell you a story or give you a goal instead of telling you a problem, then say: *"How would you state that as a problem in a few words?"*
- If they tell you an emotion they are feeling e.g. *"I'm stressed"* say: *"What are you (STRESSED) about?"* in order to make the problem specific to a particular situation.
- If every time you ask them to tell you what the problem is in a few words they give you a different long-winded answer, summarise the problems they give you in a list and then read the list back to them and ask them which problem they want to work on first. Then you should say: *"I don't want us to use my words for the problem statement so please can you tell me what the problem is in a few words."*

DON'T MAKE THESE MISTAKES!

- Once they tell you what the problem is, move immediately to Step 2. Don't ask any more questions about it and don't try to find the underlying problem. You need to clear the immediate problem first. You will have the opportunity to dig deeper later.
- Never suggest the wording of the problem to the client or tell them what you think their problem is. You must always use their words for the problem statement or you won't get good results.
- Never allow there to be more than one problem in the problem statement. You must only ever work on one problem at a time.

PROBLEM SHIFTING

PROBLEM SHIFTING

1 PROBLEM

"Tell me what the problem is in a few words"

2 SHIFTING

"Please close your eyes and keep them closed throughout the process. Please tell me the first thing that comes up when I ask each of the following questions and keep your answers brief. What could come up when I ask a question is an emotion, a body sensation, a thought or a mental image. When I ask 'what needs to happen for the problem to not be a problem?' allow your answers to be different each time"

A. "Feel (PROBLEM)...what does it feel like?"

B. "Feel (LAST RESPONSE)...what happens in yourself when you feel (LAST RESPONSE)?

C. "Feel (PROBLEM)...what needs to happen for this to not be a problem?

D. "What would you feel like if (LAST RESPONSE) had already happened?"

E. "Feel (LAST RESPONSE)...what does (LAST RESPONSE) feel like?"

F. "Feel (LAST RESPONSE)...what happens in yourself when you feel (LAST RESPONSE)?

G. "Feel (PROBLEM)...does it still feel like a problem?"

Repeat A-G until (PROBLEM) no longer feels like a problem

Tips

(1) If the answer to C is the same every time remind the client to allow their answer to change.

(2) If the client ever says "I don't know" or "I can't feel it" in response to D or E then ask them to guess what it would feel like. If they can't guess just continue to the next step with their initial response.

3 DIG DEEPER (optional)

- "Do you feel the problem will come back in the future?"
- "Is there any scenario in which this would still be a problem for you?"
- "Is there anything else about this that's still a problem for you?"

YES → Define the new problem by asking "How would you state the problem in a few words?"

NO

4 INTEGRATION QUESTIONS

BLOCKAGE SHIFTING

MIND SHIFTING

BLOCKAGE SHIFTING

1 PROBLEM

"Tell me what the problem is in a few words"

(If the client isn't able to define the problem say: "tell me one part of the problem that we can start with" or just write down the last thing they said and start Step 2 with that as the first problem)

2 SHIFTING

"Please close your eyes and keep them closed throughout the process. *Please always tell me the first thing that comes up when I ask a question and keep your answers brief.* What could come up when I ask a question is an emotion, a body sensation, a thought or a mental image. Just relax into the process like it's a guided meditation and allow the problem to keep changing. We're going to keep going until there's no problem left"

A. "Feel (PROBLEM)...what does it feel like?"

B. "Feel (LAST RESPONSE)...what does (LAST RESPONSE) feel like?"

C. "Feel the problem that you have right now...what would it feel like to not have this problem?"

D. "Feel (LAST RESPONSE)...what does (LAST RESPONSE) feel like?"

E. "What's the problem now?"

Repeat A-E until there is no problem left

Tip: *If the client ever says "I don't know" or "I can't feel it" in response to C or D then ask them to guess what it would feel like and once they answer continue to the next step. If they can't come up with a guess then say "feel that you don't know/can't feel it...what does that feel like?" and once they answer continue to the next step.*

3 DIG DEEPER (optional)

- "Do you feel the problem will come back in the future?"
- "Is there any scenario in which this would still be a problem for you?"
- "Is there anything else about this that's still a problem for you?"

YES → Continue by asking "How would you state the problem now in a few words?"

NO → ↓

4 INTEGRATION QUESTIONS

IDENTITY SHIFTING

IDENTITY SHIFTING

1 PROBLEM

"Tell me what the problem is in a few words"

2 IDENTITY

"Please close your eyes and keep them closed throughout the process. Please tell me the first thing that comes up when I ask this question…feel the problem (PROBLEM)…what kind of person are you being when you're experiencing this problem?"

3 SHIFTING

"Please keep your answers to the following questions brief and tell me the first thing that comes up when I ask each question. What could come up is an emotion, a sensation, a thought or a mental image"

A. "Feel yourself being (IDENTITY)…what does it feel like?

B. "Feel (LAST RESPONSE)…what happens in yourself when you feel (LAST RESPONSE)?"

C. "What are you when you're not being (IDENTITY)?"

D. "Feel yourself being (LAST RESPONSE)…what does (LAST RESPONSE) feel like?

E. "Feel (LAST RESPONSE)…what happens in yourself when you feel (LAST RESPONSE)?"

F. "Can you still feel yourself being (IDENTITY)?"

Repeat A-F until the answer to F is "NO"

Tips:
(1) If the client ever says "I don't know" or "I can't feel it" in response to C or D then ask them to guess what it would feel like. If they can't guess just continue with to the next step with their initial response.
(2) If the client gives you another negative identity in response to C you can say "what are you when you're not being (IDENTITY A) or (IDENTITY B)?" and continue to D using their answer"

4 CHECK IDENTITY

- Do you think you might feel yourself being (IDENTITY) in the future?
- Is there any scenario in which you might still feel yourself being (IDENTITY)?"

YES / **NO**

5 CHECK PROBLEM

"Feel (PROBLEM)…does it still feel like a problem?"

YES / **NO**

Start a new process by asking "How would you state the problem now in a few words?"

6 DIG DEEPER (optional)

- "Do you feel the problem will come back in the future?"
- "Is there any scenario in which this would still be a problem for you?"
- "Is there anything else about this that's still a problem for you?"

YES / **NO**

7 INTEGRATION QUESTIONS

REALITY SHIFTING

REALITY SHIFTING

1 GOAL

"Tell me what your goal is in a few words"

"Is there a deadline?"

"How certain are you between 0% and 100% that you will (ACHIEVE GOAL)?"

%

2 SHIFTING

"Please close your eyes and keep them closed throughout the rest of the process. Please tell me the first thing that comes up when I ask each of the following questions and keep your answers brief. What could come up is an emotion, a body sensation, a thought or a mental image. If ever you feel your goal has changed just let me know"

A

A1. Feel that (ACHIEVING GOAL) is coming to you what does it feel like?

A2. Feel (LAST RESPONSE) what does (LAST RESPONSE) feel like?

A3. Feel (LAST RESPONSE) what happens in yourself when you feel (LAST RESPONSE)?

B

B1. Why might you not (ACHIEVE GOAL)?

B2. Feel (REASON) what does it feel like?

B3. What would it feel like to not have that problem?

B4. Feel (LAST RESPONSE) what does (LAST RESPONSE) feel like?

Alternate between A and B until the answer to B1 is "NO REASON"

3 CHECKING

- **"How certain are you between 0% and 100% that you will (ACHIEVE GOAL)?"**
  If less than 100% ask "what's the reason for the X% doubt?" and continue with that reason in Step 2 Part B2.
- **"Are there any doubts left in your mind that you will (ACHIEVE GOAL)?"**
  If there is doubt as "what's the reason for the doubt?" and continue with that reason in Step 2 Part B2.

FAIL

PASS

4 INTEGRATION QUESTIONS

TRAUMA SHIFTING

TRAUMA SHIFTING

1 NEGATIVE EXPERIENCE

"Tell me what the negative experience was in a few words"

2 CHECK

"Will you be comfortable recalling the worst part of this experience and freezing it briefly in your mind?"

NO → Define a current problem by asking: *"How do you feel now about the fact that this happened?"* then apply one of the problem clearing methods to it.

YES ↓

3 IDENTITY

"Please close your eyes and keep them closed throughout the process. Please tell me the first thing that comes up when I ask this question. Think about and feel the negative experience when (NEGATIVE EXPERIENCE)…let your mind go to the worst part of this experience and freeze it there…keep feeling this frozen moment…what kind of person are you being in this moment?"

4 SHIFTING

"Please tell me the first thing that comes up when I ask each of the following questions and keep your answers brief. What could come up is an emotion, a body sensation, a thought or a mental image"

A. "Feel yourself being (IDENTITY)…what does it feel like?

B. "Feel (LAST RESPONSE)…what happens in yourself when you feel (LAST RESPONSE)?"

C. "What are you when you're not being (IDENTITY)?"

D. "Feel yourself being (LAST RESPONSE)…what does (LAST RESPONSE) feel like?"

E. "Feel (LAST RESPONSE)…what happens in yourself when you feel (LAST RESPONSE)?"

F. "Can you still feel yourself being (IDENTITY)?"

Repeat A-F until the answer to F is "NO"

Tips:
(1) If the client ever says "I don't know" or "I can't feel it" in response to C or D then ask them to guess what it would feel like. If they can't guess just continue with their initial response.
(2) If the client gives you another negative identity in response to C you can say "what are you when you're not being (IDENTITY A) or (IDENTITY B)?" and continue to D using their answer."

5 CHECK IDENTITY

- Do you think you might feel yourself being (IDENTITY) in the future?
- Is there any scenario in which you might still feel yourself being (IDENTITY)?"

YES / **NO** ↓

6 CHECK NEGATIVE EXPERIENCE

"Take your mind back to the frozen moment which was the worst part of the negative experience (NEGATIVE EXPERIENCE)…does it still feel like a problem?"

YES → Repeat Steps 3-5 with a new identity

NO ↓

7 DIG DEEPER (optional)

- "Do you feel you might feel bad about this incident again in the future?"
- "Is there anything else about this that's still a problem for you?"

YES → Ask *"How would you state the problem in a few words?"*, then pick an appropriate method to clear the problem.

NO ↓

8 INTEGRATION QUESTIONS

BELIEF SHIFTING

BELIEF SHIFTING

1

PROBLEM

"Tell me what the problem is in a few words"

2

BELIEF

"Please close your eyes and keep them closed throughout the process. Please tell me the first thing that comes up when I ask this question…Feel the problem (PROBLEM)…what do you believe about yourself that's causing you to experience this problem (PROBLEM)?"

3

SHIFTING

"Please tell me the first thing that comes up when I ask each of the following questions and keep your answers brief. What could come up when I ask a question is an emotion, a body sensation, a thought or a mental image."

A. "Feel yourself believing (BELIEF)…what does it feel like?"

B. "Feel (LAST RESPONSE) what does (LAST RESPONSE) feel like?"

C. "What would you rather feel?"

D. "What would (DESIRED FEELING) feel like?"

E. "Feel (LAST RESPONSE)…what does (LAST RESPONSE) feel like?"

F. "Do you still believe (BELIEF)?"

Repeat A-F until answer to F is "NO"

4

CHECK BELIEF

- "Does any part of you still believe (BELIEF)?"
- "Do you feel you may believe (BELIEF) again in the future?"
- "Is there any scenario in which you would still believe (BELIEF)?"
- "Do you now know (OPPOSITE OF BELIEF)?"

FAIL / **PASS**

5

CHECK PROBLEM

- "Feel (PROBLEM)…does it still feel like a problem?"

YES / **NO**

Start a new process by asking "How would you state the problem now in a few words?"

6

DIG DEEPER (optional)

- "Do you feel the problem will come back in the future?"
- "Is there any scenario in which this would still be a problem for you?"
- "Is there anything else about this that's still a problem for you?"

YES / **NO**

7

INTEGRATION QUESTIONS

INTEGRATION QUESTIONS

INTEGRATION QUESTIONS

Asking Integration Questions is the last step of every Mind Shifting method and should also be done at the end of every Mind Shifting session.

The questions are split into two sections: the AWARENESS section and the ACTION section.

The purpose of the AWARENESS section is to help the client to understand how they have changed from doing the Mind Shifting method and to become aware of what their new intention is now in relation to what they have been working on.

The purpose of the ACTION section is to help the client to figure out what needs to happen in order for them to realise their new intention – which provides them with a plan of action to implement.

You should pick relevant questions to ask from each section. But make sure you always ask the underlined questions as these are the most important.

AWARENESS

- **How do you feel about (PROBLEM/GOAL/NEGATIVE EXPERIENCE) now?**
- **What are you more aware of now than before we did this process?***
- **How has it helped you to do this process?***
- **What is your new narrative about this?**
- **<u>What's your intention now in relation to this?</u>**

ACTION

- **<u>What needs to happen for you to realise your intention?...What else needs to happen for you to realise your intention? (Until they are clear on their plan of action)</u>**
- **What is the one thing you can do that will make everything else easier or unnecessary?**
- **What is the first action that you can commit to now that will help you to realise your intention?...when will you do this?**

TIPS

- You may decide to ask questions followed by a * multiple times until nothing new comes up.
- If the Integration Questions reveal additional problems or blockages then ask the client if they would like to work on clearing that problem or blockage next.

© MIND SHIFTING 2023, INTEGRATION QUESTIONS, JUL 2024, ALL RIGHTS RESERVED
